PETROGRAD CLAIMS A RUSSIAN VICTORY

GENERAL SITUATION BEFORE WARSAW AND CRACOW IS UNCHANGED.

FOUGHT IN SOLID RANKS

Petrograd Says That Successful Crossing of the Pilica River by Enemy Was Turned Into German Reverse by Siberian Troops.

Petrograd.—The following official bulletin was issued from the general headquarters:

"There has been no change on the left bank of the Vistula or Galicia. The Germans delivered attacks in the districts of Sochaczew and Bollnow, but all were repulsed with great loss to the enemy.

"Fighting continues on the banks of the Pilica."

Petrograd.—Russian successes are reported officially from the battle fronts before Warsaw and around Cracow, but without materially changing the general situation. Violent attacks have been made by the enemy between Pinsk, 40 miles northeast of the junction of the Nida and Vistula rivers.

In this place the Austrians tried to force a passage by sheer weight. Time after time they advanced in solid formation in the face of heavy artillery fire. The net result after two days' fighting, was the capture by the Russians of nearly 5,000 prisoners and the retaking of the Russians of the left bank of the Nida.

The combatants here are old enemies. Three months ago the same Austrian troops opposed the first Russian advance on Cracow.

To the north the Russians are inflicting severe punishment on the Germans. A series of energetic attacks at Bollnow, south of Sochaczew (30 miles from Warsaw) are reported to have been repulsed on the night of the 23d by vigorous Russian counterattacks, while 40 miles further south, at Anovolon, a successful German crossing of the Pilica river was turned to a German reverse by the Siberian troops, who forced the invaders back again.

Russo-Turkish operations have been halted by climatic conditions in Asia Minor. Here the Russian troops have spread out, quartering in the villages in an immense triangle, whose sides converge for 70 miles, with the base on the Russo-Turkish frontier and the apex pointing toward Erzerum.

Clad in every variety of garment to keep warm, the Russians are huddling in every shanty, hut and farm house of the Armenians and packing cow sheds, stables and store houses. The sound of battle is rarely heard by the main body of troops, who are wintering on the way to Erzerum.

Virtually the only activity is on the part of the restless Cossacks, who are forever on the move, engaging in brushes with the opposing cavalry.

ARTILLERY FEATURE IN WEST

Violent Bombardment by the Germans All Along Border Is Feature of Battle.

Paris.—Violent bombardment by the Germans of positions of importance on both the right and left wings of the allied battle front, with scattered attempts by infantry to break through the Franco-British lines, were outstanding features of the official reports issued by the war office.

In fact, artillery duels were fought along the whole of the front from the sea to the banks of the Moselle.

The most sustained cannonading of the German guns was against St. Die, which was under a continuous rain of shells.

In point of numbers of guns and men engaged, the most important conflict was that waged by the Germans in an effort to dislodge the French and British troops, with Indian contingents, at Bolsele and other neighboring trenches in the vicinity of Albert.

Here the Germans opened an attack and their guns kept up an almost incessant cannonade, the artillery being the advance of their infantry in futile attacks, which were broken before they reached the line of the allies' front, but in each of them the allies presented trenches. Two of these attacks were made such a solid front that the Germans were not able to carry their advance through.

Turks Claim Victory

Berlin.—Reports from Constantinople say the Turks have won a decisive victory over the Russians in the Caucasus between Giti and Id.

Australia at Valparaiso.—Chile.—The Australian battle cruiser Australia came into this port. She had been on the Pacific coast of South America for several weeks. A week ago she put in at Callao, Peru.

Two Hugenbacks Killed

Louis.—Vord that Lorenz and Louis Hugenback, menagerie owners, were killed in battle.

DARING AIR RAIDS ARE MADE

French and British Aviators Avenge Attack on Nancy—German Hangar Is Burned.

London.—England and French aviators, according to official announcements, have carried out successful attacks upon the aviation bases of the Germans at Metz and Brussels.

The aviation hangars at Frescaty, near Metz, were bombarded and it is believed considerable damage was done. Bombs and arrows were dropped upon the railroad station at Metz and upon the military barracks at St. Privat, just outside the town.

At Brussels 12 bombs were dropped on the airship shed, six of which were effective. The German hangar was burned.

An official dispatch received by the Exchange Telegram company from Rotterdam says:

"It is rumored here that a Zeppelin was sighted near Nieuport and was shot at by the allies and all its occupants killed in the debris of the airship as it descended.

With dramatic suddenness the French avenged the Zeppelin attack on Nancy, in which two persons were killed and a number wounded by sending French aeroplanes over the enemy's lines to drop bombs on the great German base and fortress of Metz. The French war office asserts in its official communiqué issued and transmitted here that the German air attack on Nancy, in which a dozen bombs were dropped by a Zeppelin on the center of the city, was without military reason. On the other hand, the targets of the French aviators which successfully reached the German fortress were purely military.

Of all the places on the German side of the Lorraine border, Metz is the most complete in the present operations. It is the great depot through which pass the supplies for most of the German forces in the southern part of the French territory. Because of this its permanent forts now are reinforced by almost impregnable supplementary defenses, while searchlights and anti-aircraft guns have been placed at every available point from which they can sweep the skies.

Both Scott and Maytorena frequently cross the international boundary during their discussion, which was held in direct range of Hill's guns. At Gen. Scott's request, Hill discontinued firing in this direction.

ATTACK GERMAN NAVAL BASE

British Airships, Escorted by Warships, Make Raid on Cuxhaven. One Aviator Lost.

London.—Assisted by light cruisers, destroyers and submarines, seven British naval airships, piloted by aviators, made a daring attack on the German naval base at Cuxhaven, at the mouth of the Elbe. Six of the airships returned safely, but the seventh, Commander Hewitt, it is feared, has been lost. His machine was found off Helgoland, wrecked.

What damage was done by bombs thrown by the attacking party could not be ascertained, but the German report of the affair says the raid was fruitless.

The enterprise of the British navy in thus attempting to "dig out" the German fleet brought about a battle between the most modern of war machines. The British squadron, including the light cruisers Arcturion and Undaunted, which have been engaged in previous exploits on the German coasts, were attacked by Zeppelins, seaplanes and submarines.

By rapid maneuvering the ships were able to avoid the submarines, while the Zeppelins found the fire of the cruisers too dangerous for them to keep up the fight. The German seaplanes dropped bombs, which, according to the British account, fell harmlessly into the sea. The Germans, however, claim to have hit two destroyers and their convoy, the latter being set afire.

SMALL ADVANCES ARE MADE

Center of Interest in Poland Shifts Toward the South—Road to Warsaw Is Blocked.

London.—The allies in the west, the Germans in Poland and the Russians in East Prussia and Galicia continue offensive operations, but the advances have been so slight as to be almost imperceptible. In the long run, however, the ground gained may prove vital, and the various armies are fighting with an intensity not exceeded since the war began.

In Poland the center of interest has shifted slightly to the south. Finding the direct road to Warsaw blocked by the Russian reinforcements, the Germans made an attack from the southwest, and have reached Skierniewice, forty miles from the Polish capital.

Thus far have failed to pierce the Russian lines, but have forced Grand Duke Nicholas to withdraw from before Cracow. In this, one of the chief aims of their offensive against Russia, the Germans have been successful.

In Galicia Russia has resumed the offensive against the Austro-German forces which have poured in from the west and across the Carpathians.

Von Hindenburg Is Hero

Berlin.—Field Marshal Paul von Hindenburg is easily the most popular man in Germany just now. In every city where new streets are being laid out, one is certain to be called Hindenburg street.

23 Officers Killed

London.—The latest official casualty list shows 23 officers were killed and 61 wounded. The casualties occurred in all branches of the service, about 60 different regiments having lost one or more officers.

MEXICANS WILLING TO BE REASONABLE

GEN. HUGH L. SCOTT REPORTS PROGRESS IN CONFERENCES AT NACO.

SAYS "VARY SATISFACTORY"

Meets Gen. Benjamin Hill—Carranza Leader—Various Solutions of Border Problem Discussed—Series of Conferences.

Naco, Ariz.—Gov. Maytorena of Sonora showed "a friendly and harmonious" attitude and a disposition to consider a settlement of the Mexican border problem here, according to Brig. Gen. Hugh L. Scott, chief of staff of the United States army, who conferred with him in an army camp pitched on the international boundary four miles east of here.

"Progress" was the term Gen. Scott applied to this conference. "Very satisfactory" was his characterization of his meeting with Gen. Benjamin Hill, the Carranza leader, who has been cooped up for 10 weeks in Naco, Sonora, by Maytorena's Villa troops.

Various solutions of the border problem, brought to a crisis by the killing of five persons and the wounding of 47 on the American side of the line by stray Mexican bullets, were discussed at the meeting. Gen. Scott frankly says his mission is one "not to be rushed," and thinks a series of conferences with the rival Mexican leaders will be necessary. The two conferences thus far are "favorable," but "inconclusive," he declares.

Both Scott and Maytorena frequently cross the international boundary during their discussion, which was held in direct range of Hill's guns. At Gen. Scott's request, Hill discontinued firing in this direction.

LAMAR HEARS FRANK APPEAL

Hour's Argument Made by Louis Marshall of New York—Decision Is Postponed

Washington.—Justice Lamar of the supreme court postponed action on appeal in the case of Leo M. Frank, under death sentence for the murder of Mary Phagan, the factory girl of Atlanta, Ga.

Louis Marshall of New York made application to the justice for an appeal from the decision of Judge Newman of the Georgia federal court, denying Frank's petition for release on a habeas corpus writ. The attorney argued for an hour that the trial court which found Frank guilty had lost jurisdiction over him by permitting a mob atmosphere to prevail in the court room and by allowing a verdict to be returned during the prisoner's absence from court. Justice Lamar notified Mr. Marshall that he would withhold decision on the application.

Most of the points in the case are fresh in the justice's mind, as just before Thanksgiving he denied an application for a writ of error to review the action of the Georgia supreme court in refusing to set aside the verdict. The justice held in that proceeding that the state of Georgia had exclusive power over procedure of state courts. The attempt was to establish that the case now could be considered on its merits.

FIVE ARE CREMATED IN FIRE

Other Lives May Have Been Lost in Boston Fire—Disaster in City Home.

Cambridge, Mass.—At least five inmates of the Cambridge City Home lost their lives when fire destroyed the three-story stone structure on Tannery street. Firemen at a late hour were searching the ruins for possible additional bodies. The five recovered were so badly burned that identification was impossible.

Scores of men, women and children were taken down ladders. Many were so seriously burned or affected by the smoke that they were taken to hospitals.

HINDU TEMPLE IS WRECKED

Bomb Bomber Is Killed and Five Others Hurt in Frisco—Carried a Bomb in Hat.

San Francisco, Cal.—A man named Vavara, believed to have been a religious fanatic, wrecked the Hindu temple at Filbert and Webster streets, exploding a dynamite bomb at the feet of the Swami Trigunatita during services.

Vavara was instantly killed, the bomb blowing him almost in two. The swami was horribly injured about the legs and feet. Of the congregation, about 35 persons, four were injured. They are Mrs. Clara French, seriously; Mrs. F. Peterson, seriously; Walter Morris, eye blown out; Mrs. Isabelle C. Stevens, slightly.

Vavara was known to all of the congregation, which is maintained on the third floor of the temple up to two years ago, when for some reason he was dropped. He came quickly by the doorkeeper, E. C. Brown, and walked down the center aisle of the temple. He is believed to have carried the bomb under his coat until getting inside, and then to have transferred it to his hat. No one interfered with him as he approached the platform from which the swami was preaching.

Lifting the bomb from his hat, he moved it up and down three times and brought it down with a crash on the platform.

There was a deafening report and all of the windows of the temple were blown into a distance of about 100 feet. The temple there was a panicle, and the injured ran screaming into the street.

The platform on which the swami stood was smashed into kindling wood, the floor was blown up, pictures behind the altar were torn from their frames and a piano and organ were torn apart.

Immediately after the explosion relief was given to the victims. Those of the congregation who might have known any cause for Vavara's act immediately began to tell conflicting stories, and the investigation has so far been fruitless in uncovering the cause. Vavara was a machanic and was employed at his trade in Oakland.

92 CITY OFFICIALS ARE HELD

Arrests in Terre Haute Case Cease—Further Action Expected When Grand Jury Meets.

Indianapolis, Ind.—Mayor Donn M. Roberts of Terre Haute, indicted for alleged violation of election laws and placed in jail here in default of \$10,000 bonds, may make an effort to procure his release. Mayor Roberts' wife procured a blank bond from Federal Marshal Storen and said she expected to produce satisfactory securities to gain her husband's release.

Although only 92 of the 125 men who are said to have been arrested, no more will be taken into custody at the present time, Marshal Storen said. Some have left the county, he said, others are ill, and one, Edward Holler, Terre Haute's superintendent of police, is serving a sentence for contempt of court. Those under arrest will be arraigned about Jan. 15, according to Federal District Attorney Paisley.

When the federal grand jury reconvenes here Jan. 4 election conditions in Terre Haute, it is said, will again be taken up. When the jury recessed it returned a partial report in which more than 125 men, including Mayor Donn M. Roberts and practically his entire official family, were indicted.

The real story of the election merely is hinted in the indictment, it is said. Federal authorities have indicated that they will not expose their hand until the trial is called. Federal District Attorney Paisley, in personal charge of the investigation, says immunity has been offered to none.

BAR CATTLE OF OTHER STATES

COMMISSIONERS WILL PREVENT SHIPMENTS HERE FROM INFECTED TERRITORY.

OTHER PRECAUTIONS TAKEN

Federal Quarantined Districts Will Be Guarded Against to Prevent Outbreak Against an Epidemic.

Western Newspaper Union News Service. Louisville, Ky.—The shipment of cattle from federal quarantined states has been forbidden by J. W. Newman, commissioner of agriculture. Lack of regulation in Illinois and Ohio is given as the reason for the action of the commissioner.

At the same time Mr. Newman announced that every infected herd in Kentucky known to the authorities had been placed under the ground, adding that his new order was designed to protect the farmers against a fresh outbreak. Commissioner Newman also quarantined Jessamine county, though the infected herd discovered Sunday was buried. Jessamine county is now in what is known as the inspection list.

County Judge Pickrell, of Hodgenville, Laramie county, accompanied by several prominent stock raisers, called on Mr. Newman to learn if regulations on that county could not be modified in view of the fact that all infected animals had been buried. He was assured that Laramie county, which is now one of the four counties under absolute federal quarantine, was in a fair position to be added to the inspection list soon after January 1. Judge Pickrell and his associates pledged cooperation.

MERGE RISK COMPANIES

Four Life and Fire Insurance Companies Plan Consolidations.

Louisville, Ky.—Consolidation of the Inter-Southern Life Insurance Co. and the Citizens National Life Insurance Co. seems assured as the result of conferences which are being held here between officers of the two companies. It is expected that James R. Duffin, now president of the Inter-Southern Co., will continue as head of the two companies.

Should the merger become effective, the new company will have in force \$40,000,000 worth of insurance. It will be capitalized at \$1,000,000, will have a surplus of \$250,000 and assets of over \$4,000,000. The Inter-Southern Life at the present time is capitalized at \$750,000 and the Citizens National at \$500,000.

Indications are that an early merger of the Great Southern Fire Insurance Co. of this city and the Henry Clay Fire Insurance Co. of Lexington will be completed.

The Great Southern and the Henry Clay have a great capital stock of approximately \$200,000 and about \$700,000 assets. The consolidation, therefore, would mean the amalgamated company would have something like \$1,500,000 in assets, making it one of the strongest fire insurance companies in the South.

WIFE CHARGES COLLUSION

Files Suit Against Husband on Account of Son's Death.

Owensboro, Ky.—One year ago Thomas Steele, of this place, was shot while running after a fight. Police man Jesse N. Barker was arrested and later acquitted on the charge of causing his death. T. H. Steele, father of the man killed, as administrator of his estate, has filed a suit for \$10,000 damages against Barker and a bond company. A few minutes after he filed his suit against Barker, Mrs. Steele filed a suit for \$25,000 damages against Loren Whiteley and her husband as administrators. She charges that it was Whiteley who shot her son and that her husband entered into a collusion with Whiteley not to sue him.

Georgetown, Ky.—Mrs. Sarah Burch Thomas, a sister-in-law of John C. She was recognized as a benefactor of Georgetown college, and aided her husband greatly.

It was established in 1839 in an old house that stood on the present site of the Kentucky School for the Deaf. For a number of years the club has been known as the Anacanda club, which is a nickname. During its career the club has numbered among its members many of the distinguished men of the state.

WREATHS FOR TOMBS OF CLAY

NOTED STATEMENT FOR MAN'S ACHIEVEMENT FOR POSTERITY IS HONORED BY WEST.

MEMORIAL SERVICE IS HELD

Floral Tributes to Henry Clay and Washington Are Placed on Grave With Fitting Ceremony.

Western Newspaper Union News Service. Lexington, Ky.—On the hundredth anniversary of the death of Henry Clay, one of three Americans who, at Christmas eve, were signing the Treaty of Ghent, which eventually caused the country of Washington to become a part of the United States.

At Christmas this year the people of Lexington are joining with the people of Oregon and Washington in the people the memory of Clay on a day in honor of his achievement.

A wreath of evergreens, composed of cedar and wild grape vines, composed of huckleberry, and from Oregon laurel from Washington, sent by those states as their tribute, was placed on the tomb of Clay in the city cemetery. The wreath was Lexington Professor E. S. Meany of the sent by state of Washington to Professor Haisward Tuthill of the State university.

Professor Tuthill was in charge of the memorial services conducted at Clay's tomb. Master Clay, son of a descendant of Henry Clay, placed a wreath at the tomb.

Although the treaty of Ghent did not fix the boundaries giving Kentucky to the United States, it was through the efforts of Henry Clay, John Quincy Adams and Albert Gallatin that the boundary was settled in 1826.

Wreaths similar to the one at the tomb of Clay here were placed on the tombs of Adams at Quincy, and Gallatin in New York City, at the same time the ceremonies were conducted here.

END WHEAT EXPORTATION

Increased Flour Prices Cause Millers to Object to Shipments Abroad.

Louisville, Ky.—Kentucky millers want a stop put to the heavy exportation of wheat from the United States to Europe. Despite the fact that the 1914 wheat crop was one of the largest in the history of the country, the price of flour in Central Kentucky has advanced 20 cents per hundred pounds in the last week. There is indication, say the dealers, of a further increase soon.

The Kentucky millers are actively discussing ways and means of putting an end to the heavy exportation. Government statistics show that 146,000,000 bushels have gone abroad in the last five months, the greatest part of it either out of Chicago river or from Duluth for Montreal, where it is reloaded for unknown points in England or France.

BANKER TAKES APPEAL

George Alexander Seeks New Hearing When Convicted of Embezzlement.

Paris, Ky.—George Alexander, president of the bank of George Alexander & Co., will take an appeal from his conviction on his plea of guilty on seven charges of embezzlement. Mr. Alexander has been sentenced to serve a sentence from eight to seventy years. Motions for a new trial and a stay of judgment have been overruled. Rumors are also in circulation that a pardon for Mr. Alexander will be sought, and it is said that several of his creditors have signed a petition to the governor asking that a pardon be granted. Standing against the former banker are charges of making false entries and otherwise violating the banking laws on which he can be tried at any time.

MYSTERY IN DEATH OF BABIES

Kentucky Town Excited Over Strange Fatalities Among Small Children.

Owensboro, Ky.—Six babies have been found dead in their beds at their homes in Drakesboro. Physicians of the little mining town of 1,100 inhabitants in Muhlenberg county are of the opinion that the children were either frozen or smothered to death. There is the greatest excitement prevailing in the town. The children, when they were put in their beds at night, were apparently in the best of health. In six homes the parents awoke to find their youngest child dead.

BOYLE IS WEALTHIEST COUNTY

Danville, Ky.—Assessor J. S. Baughman and Deputy G. A. Kirkland have completed the assessment of Boyle county. The total taxable property in the county is a fraction over ten million dollars. The average wealth of the county per capita is \$368. This is said to be the highest per capita wealth in the state. The most remarkable feature of the assessment was the listing of 3,000 dogs, which breaks all past records. This means there will be \$3,000 in the sheep fund.

THE MURRAY LEDGER

O. J. JENNINGS, EDITOR.

Entered at the postoffice at Murray, Kentucky, for transmission through the mails as second class matter.

THURSDAY, JANUARY 7, 1915

HON. JAS. B. ALLENSWORTH.

In the last issue of the Ledger was published a card by Hon. J. B. Allensworth, of Hopkinsville, announcing his candidacy for the democratic nomination for Commonwealth's Attorney. Owing to the crowded condition of the columns of the Ledger at the time it was not possible to direct editorial attention to the card. However, the card elicited favorable comment from scores of Calloway voters.

Mr. Allensworth is not a stranger to the people of this county, having been called by the democratic party upon numerous occasions to campaign Calloway in the interest of party nomination. The fact that he filled the mission successfully is attested by the friends he made upon these visits. He also served as Commonwealth's Attorney here during a term of Calloway Circuit Court in the absence of the regular attorney, and proved his ability as a prosecutor. He is one of the ablest attorneys of the Hopkinsville bar, and is associated with the Hon. James Breathitt in the practice of his profession. His acquaintance in Christian county, his home, is extensive and his friends are numbered by the hundreds. He is well known in every county of the district, and the Ledger predicts will prove a most formidable candidate for the nomination he seeks.

What disposition will be made of the stock of goods is not yet determined. The stock, fountain and fixtures were purchased for \$2,475.

At the same time the stock of goods were sold a Studebaker automobile, the property of Mr. Miller, was also sold and was purchased by Dawin White, of Hazel, for \$501.

Cure Hog Cholera.

The word "cure" is seldom used in connection with hog cholera. Why? Because of the frequent failures. But we use the word "cure" and guarantee that B. A. HEROINE NEVER WINCED—SHOT.

Fulton, Ky., Jan. 1.—Miss Gertrude Binkley, of this city, teacher at Bennett school house, three miles northeast of Fulton, is the heroine of an accident that occurred Saturday night during a Christmas entertainment given by the pupils in the interest of the school.

A large crowd was present and a drama was being presented. Eldridge Hastings was supposed to fire a blank cartridge at Bessie Provow. He fired, all right, a 32 Smith & Wesson pistol, but instead of a blank someone had blundered, and it carried a ball. The missile struck Miss Binkley in the calf of a lower limb and ranged upward and imbedded itself in the flesh. The boy was reclining on the floor when he fired is the reason the ball ranged upward.

Miss Binkley made no outcry and continued her part until the play was finished, when she almost fainted from the intense pain. She was brought home and Dr. R. N. Whitehead called. He has not yet removed the bullet. The wound is not considered dangerous.

Miss Binkley, when asked why she did not give the alarm, said that the people had paid their money and she did not want to spoil the play and break up the entertainment.

Woman Cures Horse Colic.

The men were away as usual. The horse was bad. A lone woman could not "drench" the usual way. She called a neighbor and her men were away—but: "We have Farris Colic Remedy that you drop on the horse's tongue," says Mrs. Neighbor. So she came over and dropped Farris Colic Remedy on the horse's tongue and the horse was well when the men came home. Moral: Get Farris Colic Remedy so the women can cure horse colic. We sell it 50 cts. a bottle on the Money Back Plan. Sexton Bros.

TO THE DEMOCRATS OF THE THIRD JUDICIAL DISTRICT.

I am a candidate for re-election to the office of Commonwealth's Attorney, subject to the action of the Democratic party in the next August primary. You have already honored me, for which I most sincerely thank you. No words of mine can fully express my appreciation of your confidence and favor, but I want you to know I am truly grateful. One more year and I will have served out my present term, and I can hand the office back to you without one stain upon it. I can now see, it is true, many mistakes I have made. Were the time to go over again I could, in the light of experience, avoid many errors, but I could not try any harder than I have tried to do my whole duty in the light of the facts before me.

The office you have intrusted to my administration is one of great importance to the people. Criminals employ the best talent they can to defend them; and resort to every wile and device known to their ingenuity to baffle the State and its officers. To check-mate the devices of the criminal, and bring him to justice is one branch of a Commonwealth's Attorney's duties, but by no means all, and often not the most important of them. Most every term of court some one seeks to have a serious charge made against some citizen through malice, and in many of such cases the decision of whether an indictment shall or shall not be returned is passed up to the Commonwealth's Attorney. No one should ever be indicted until the proof is clearly sufficient.

I believe the experience I have had qualifies me better than ever before to discharge the duties of the office, and I assure you if you re-elect me I shall do my best to make you a faithful and efficient officer.

Doubtless it is unnecessary to mention my Democracy. My service to the party is well known. Suffice it to say, I have never opposed the election of a Democratic nominee nor scratched a Democratic ticket.

Again thanking you for your continued partiality and confidence in the past, and respectfully asking your support in the coming August primary, I am,

Sincerely yours,

DENNY P. SMITH.

The Ledger editor is under obligations to Miss Cora Walker, south of the city, for a sack of very fine sausage. It was as good as we ever ate and to Miss Cora, we feel, is due this fact. The junior class of the high school tendered Prof. J. W. Jones, principal of the school, a delightful surprise luncheon Wednesday afternoon in honor of his thirtieth anniversary. The senior class and the entire faculty participated in the affair. Not only dainty refreshments were served but quite an elaborate repast was served and every guest was delightfully entertained. It was one of those very rare, happy occasions that enters into the life of teacher and pupils during school days.

Two Delightful Occasions.

A farewell union service was given Miss Alice Water December 27th, at the M. E. church. The address by Miss Waters was the principal number on the program, and she never spoke more interestingly or entertainingly, or to a more attentive audience. The excellence of the musical program was largely due to the efforts of Mrs. Barber McElrath, who conducted the practice for the united choir. Several most effective numbers were given by the choir of the Christian church. Mrs. Randolph and Miss Cutchin as musicians. Rev. Green, of the Christ an church, and Rev. Beale, of the Baptist church, contributed much to the general excellence of the entire program. If the Ledger is correctly informed this is the first real union church service of any kind held in Murray for so, these many years, but it is to be sincerely hoped that it is only the first of many.

The reception given by the ladies of the Missionary Society, the Methodist church, for Miss Waters, to the ladies of the town was largely attended, considering the inclemency of the weather. The beautiful Sexton home was decorated in Christmas green and pot flowers. The receiving line consisted of Miss Waters and the officers of the society. After greeting these the guests were served a dainty luncheon by the members of the society, with Mrs. Ben Grogan at the chocolate urn, assisted by Misses Ruth and Francis Sexton in her serving.

Miss Waters bade her many friends good-bye at the close, and she left the morning of December 30th on her trip to the foreign field. She will be stationed at Shanghai, China, as secretary of the district.

JANUARY 7, 1915.

Death of Popular Boy.

One of the saddest deaths that has occurred in the city of Murray in some time was that of Goebel Holland, the young son of Oscar Holland and wife. His death occurred last Wednesday afternoon at the Murray Surgical Hospital where he underwent an operation for the removal of his tonsils. He was able to walk to the hospital and his sudden death was a sad shock to his parents and the family and the many friends in the city.

Goebel Holland was about fourteen years of age and a favorite among a wide circle of friends with whom he was intimate. He possessed a happy, sunny disposition and was endowed with an exceedingly bright mind. He was a member of Troop I, Murray, Ky., Boy Scouts of America, and last year accompanied the troop on its annual outing. He was the life of the outing and his death is genuinely regretted by every member of the troop.

CAUGHT NAPPING

His Bet.

In a certain Vermont old character known as "Doc," who is so confident and cheerful that it off at those to get any from him. "Doc," of this country, has the ever having told a lie, he is so cautious of, he has never been in innocent untruth. When his doctor, in confidingly touching Uncle's arteries, ventured to say that he could cure him, he told what wasn't so. A lady took the bet.

ONLY FOR PIOUS MOSLEMS

Fish to Which Is Attached Quaint
Legend, Is Distinctly
"Anti-Christian"

The hakeema, a short, gold-striped
fish much appreciated by the Moham-
medan natives of Mogador, is said to
be "anti-Christian" to such an extent
that the European fishermen, however
great his skill at home, finds his hook
quite ineffective, while alongside him
a ragged Moor may be rapidly filling
his baskets. A quaint legend is at-
tached to the fish, which every good
Mohammedan firmly believes. In the
dim and distant past hakeema was so
numerous close to the town that towns-
folk went down and caught them from
the rocks, and when the boatmen came
back from their hard day's toil on the
strand they found the market glutted
and no sale for their fish. So they
complained to a saintly man then stay-
ing in the town, called "Sidi Boobe-
ker," asking if he could not send the
fish away from the rock ledges near
the town. Being duly propitiated the
holy man went down to a commanding
position on a high rock, summoned all
the hakeema tribe before him, claim-
ing the law of Allah against them,
making them an impressive oration,
ending with an injunction to leave
those waters and proceed to certain
rocks specified by his clients. Where-
upon the gold-striped ones obediently
departed, and since that day not a
hakeema has been taken from the
mainland rocks near the town, where
as they may be found and caught
plentifully by pious Moslems, he it un-
derstood—every summer at the "Rock
of Grass," the "Rock of Haba," and
other points outside Mogador island,
designated by the pious and faithful
fishermen.

Acts Almost Automatically.

Among camera improvements is an
instrument so completely automatic
that it is almost impossible for the
operator to make a mistake. In the
first place, as the camera is opened
the lens automatically finds the proper
place for a universal focus. It is a
magazine camera carrying plates,
and in order to prevent a premature
exposure the plate does not fall into
its place until the shutter is adjusted,
and after the exposure it immediately
takes its place in the magazine again.
As the plates are exposed they are
automatically numbered so that they
may be readily identified when being
developed. It is said to be impossible
to make a double exposure or to
neglect to expose a plate by any ac-
cident. If any of the essential opera-
tions of making the picture are over-
looked the instrument is made inop-
erative, so that the instrument is a
"fool-proof."

Quite Sensible.

The scarcity of servant girls led to
a certain wealthy Amer. lady en-
gaging a farmer's daughter from a
rural district of Ireland. Her want of
familiarity with town ways and lan-
guage led to many amusing scenes.
One day a lady called at the residence
and rang the bell. Kathleen, the ser-
vant, answered the call.
"Can Mrs. — be seen?" asked the
visitor.
"Can she be seen?" sniggered
Kathleen. "Sure, an Ol think she
can; she's six feet high, and four feet
wide! Can she be seen? Sorra a bit
of anything else can ye see when she's
about."

ALIVE TO SITUATION

Administration Is Awake to
Needs of National Defense.

Able Report of Secretary of War Gar-
rison Should Convince the Coun-
try That the Matter Is in
Safe Hands.

If any honest and sincere person
has really believed that the Wilson
administration was indifferent to the
question of national defense and not
fully alive to its responsibilities in the
unlikely event of war his doubt
should be removed by an unbiased
reading of the very able report of
Secretary of War Garrison and of the
testimony of Secretary of the Navy
Daniels before the naval committee of
the house of representatives. Especial
significance attaches to the views of
Secretary Garrison, because it is
well known that he more than any
other member of the cabinet is the
chosen confidant of President Wilson.
It was because of the president's con-
fidence in the excellence of his judg-
ment that he was elevated from his
judicial post in New Jersey to his
present position, where he has fully
vindicated the faith placed in him.

When President Wilson's message
to congress and the report of the sec-
retary, which, of course, was first
submitted to the president, are taken
in conjunction they form a very ad-
mirable statement of the attitude of
the administration toward the whole
question of national defense. The
president, refusing to yield to any
passing hysteria, eloquently stated
the traditional position of the people
of the United States toward war, and
his opposition to a large standing
army. Entirely consistent with this
position is Secretary Garrison's ad-
vocacy of increasing our present small
army by adding 25,000 men and in
other ways strengthening the military
power of the government. His other
wise suggestions, based upon a care-
ful study of our present defenses,
doubtless reflect in detail the views
which the president stated in a general
form in his message.

In all the information which the ad-
ministration has readily placed before
the committees of congress there has
been no disposition to withhold any-
thing, to gloss over defects or exag-
gerate dangers. President Wilson and
his advisers have shown that they are
making the best possible use of the
resources at hand. That is all that
the American people wish them to do.

Remarkable Report.

Secretary McAdoo's annual report
will always rank as a historical docu-
ment of great value in the annals of
American finance because it tells the
official story of the financial opera-
tions incident to the outbreak of the
world war of 1914, from the govern-
ment point of view. On the purely
financial side, this administration is
destined to bulk large in history for
two reasons: The new federal re-
serve banking system is one, the un-
precedented financial crisis caused by
the war is the other. The secretary
of the treasury in this report, review
episode after episode since August 1,
that combined will hereafter make
one of the most memorable chapters
in the history of the treasury depart-
ment. Future students of this period
will marvel that the Wilson adminis-
tration was bitterly denounced as
"hostile to business" while it was
scoring a great triumph in carrying
the burden of the most extraordinary
emergency known to modern finance.
There is still almost no recognition of
this fact by the people, least of all
by bankers and business men—Spring
field Republican.

Judgment Without Reason.

"The broadest charges of naval de-
cline now stand officially confirmed."
The Tribune.
By whom? By Admiral Badger, who
says that ship for ship there is no
better navy in the world? By Ad-
miral Fletcher, who says that the
ships individually are in a high state
of efficiency, as high as they have
ever been, and that only the British
navy surpasses ours in fighting
strength? Or has the Tribune sud-
denly decided that Hearst journalism
shall no longer be left without a New
York competitor? New York World.

Uphold the President.

The people trusted the Democratic
party to do what it promised. In his
inaugural address the president closed
with these noble words: "Men's hopes
call upon us to say what we will do.
Who shall live up to the great trust?
Who dares fall to try? I summon all
honest men, all patriotic, all forward-
looking men, to my side. God helping
me, I will not fail them if they will
but counsel and sustain me." This is
a compelling appeal, and all true and
honorable Democrats in congress
should heed it and rally around the
president to redeem the party pledges.

Administration's Good Work.

Many novel expedients were adopt-
ed in meeting the crisis caused by the
European war. The government
throughout it has let rather than fol-
lowed with the federal reserve board
instead of some Wall street bank-
pre-eminence in expert guidance. It
mistakenly have been made they have
not been vital. The great outstanding
fact is that this country has with-
ered one of the most critical years in
its financial history in a manner high-
ly creditable to its administration.

NEW IN NATURAL HISTORY

Donald's Sharp Eyes Had Noticed
Animal That None of the Class
Recognized.

The class of little people were tell-
ing stories in geography recitation.
Each one was allowed to describe an
animal and the others were to guess
the name. Donald anxiously waited
his turn. When it came he began with
enthusiasm: "Why, it's a great, big,
clumsy animal with a thick hide and
a tail like a cane. It has little eyes
close together, big, floppy ears, a long
trunk."
Here he was interrupted by many
eager to guess.
"An elephant," shouted the first boy
permitted to speak.
"No," said Donald, stolidly.
The class searched their brains for
other guesses and even the teacher
was puzzled. Finally all "gave up,"
and Donald was asked the name.
"Why, I see pictures of it every-
day in the paper and so do you. It's
a Gop."

Mark of 100 for "Sammy."
"Sammy" April, the small boy who
supplies President Wilson with news-
papers, called on Secretary Taft and
asked him what he thought of
Mr. Wilson's message to congress.
Mr. Taft, immediately launched
into a laudatory discussion of the sub-
ject. When he had taken a few min-
utes, he paused and asked: "But why
do you ask, Sammy?"
"I have to write a composition on
it in school tomorrow," replied the
boy, "and I thought I would come to
headquarters for the information."

TAKE SALTS TO FLUSH
KIDNEYS IF BACK HURTS

Says Too Much Meat Forms Uric Acid
Which Clogs the Kidneys and
Irritates the Bladder.

Most folks forget that the kidneys,
like the bowels, get sluggish and clog-
ged and need a flushing occasionally,
else we have backache and dull misery
in the kidney region, severe head-
aches, rheumatic twinges, torpid liver,
acid stomach, sleeplessness and all
sorts of bladder disorders.
You simply must keep your kidneys
active and clear, and the moment you
feel an ache or pain in the kidney
region, get about four ounces of Jad
Salts from any good drug store here,
take a tablespoonful in a glass of
water before breakfast for a few days
and your kidneys will then act fine.
This famous salt is made from the
acid of grapes and lemon juice, com-
bined with lithium and is harmless to
flush clogged kidneys and stimulate
them to normal activity. It also neu-
tralizes the acids in the urine so it
no longer irritates, thus ending blad-
der disorders.

Jad Salts is harmless, inexpensive;
makes a delightful effervescent lithia-
water drink which everybody should
take now and then to keep their kid-
neys clean, thus avoiding serious com-
plications.

A well-known local druggist says he
sells lots of Jad Salts to folks who he
believes in overcoming kidney trouble
while it is only trouble—Adv.

For and Against Cremation.

Cremation seems to be becoming
a necessity, especially around the
great centers of population, where
advocates of the practice. At the
rate at which cemeteries are increas-
ing around such cities as New York
and London, each of which requires
about twenty-four acres of additional
land annually to bury the dead, it has
been predicted that the cities of the
living will be veritably encompassed
by "cities of the dead." Humanity
is reluctant to give up the age-long
practice of inhumation, some anti-
cremationists declaring that "when
the body is consumed by heat, the
soul is at the same time destroyed."
Legal-minded objectors also point out
that it destroys all evidence of crime
where murder by poison has been
committed. In reply the cremation-
ists argue that cremation is the only
hygienic, sanitary and economic meth-
od of disposing of our dead.

Quiet Louvain.

I had to look at the now much-talked-
of Louvain, quite a pretty old place,
with its magnificent hotel de ville
crowded in by the impressive church
in the center of the town, and its in-
numerable other old gray churches
with long sloping roofs, the place a
perfect nest of towns and friars. The
streets were lined with the high walls
and closed windows of convent after
convent, and huge clusters of monas-
teries were on the hills about the town.
Many very newly built and modern
buildings and the town was seething with
black-robed priests and brown bare-
footed monks and nuns. This
was the great Roman Catholic center,
where some of the monastic orders
have their chief establishments. The
library at the university, so richly
destroyed, contained a priceless col-
lection of church documents. A

"Yes, dearest," she replied. "I have
always thought it was such a mistake
for two people to rush into matrimony
before they learned to really know
each other."
"Well, about how long would you
wish the engagement to be?"
"Let me see. Would you think it
was too long if we didn't get married
until a week from next Thursday?"

Wonders of Science.

A French scientist says that the bil-
lions of cubic feet of heated gas that
have been shot into the upper air
since the first of August, have been
displaced by cold air from the north
pole, thus causing the early freeze
along the battle line. On the same
theory it may be that the safe and
sane Fourth of July crusade was to
blame for our hot summer.

was asked what kind of meat she
would like, Lauretta replied: "A lit-
tle of the lean and a little of the

GRANDMA USED SAGE TEA
TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea
and Sulphur to Bring Back Color,
Gloss, Thickness.

Almost everyone knows that Sage
Tea and Sulphur, properly compound-
ed, brings back the natural color and
lustre to the hair when faded, streaked
or gray; also ends dandruff, itching
scalp and stops falling hair. Years
ago the only way to get this mixture
was to make it at home, which is
messy and troublesome. Nowadays,
by asking at any store for "Wyeth's
Sage and Sulphur Hair Remedy," you
will get a large bottle of the famous
old recipe for about 50 cents.
Don't stay gray! Try it. No one
can possibly tell that you darkened
your hair, as it does it so naturally
and evenly. You dampen a sponge or
soft brush with it and draw this
through your hair, taking one small
strand at a time, by morning the gray
hair disappears, and after another ap-
plication or two, your hair becomes
beautifully dark, thick and glossy—

HON. W. W. TICE DIES IN FLORIDA

Mayfield, Ky., Jan. 4.—Information of the death of Hon. W. W. Tice, formerly of this city, but later of Florida, was received in a telegram to a friend here Friday. Mr. Tice died at his winter home near Fort Meyers Thursday night. He had reached the ripe age of 84 years, and had been feeble for some time. The burial took place in Mayfield Monday, beside the body of his wife.

Mr. Tice was a native of New York state, being born near Buffalo. When about thirty years of age he came to Kentucky and located in Mayfield and read law under Richard R. May, one of the best lawyers of this section of the state. He was soon able to take up the profession and in a few years was known as a lawyer of great ability, and in his zenith was regarded as without a peer. He served as commonwealth's attorney years ago for the judicial district which embraced all the counties west of the Tennessee river.

"Mr. Smith's popularity among his home people was attested in his race for the Democratic nomination for Congress over two years ago, when, with three opponents, he only lost 111 votes out of a total of 1317 cast in Trigg county.

"Not only is Mr. Smith very popular with the Democrats of this district, but he is equally as strong with the element of independent voters, and if nominated will also receive quite a nice vote from many republicans throughout the district, in fact it has been reliably suggested that he would not have any opposition from the Republicans in case he was the nominee."

the killing and placed in jail for some trivial offense. During the afternoon Watkins talked to the marshal regarding the matter and expressed the opinion that his friend should not have been placed in jail and stated to the marshal that he would have taken charge of him and taken him home. The marshal became angered and struck Watkins and then shot and killed him. An examining trial was held and the accused placed under bond to await the action of the grand jury. Bun Watkins was about 23 years of age and had been a resident of Oklahoma for about 14 years. He is survived by a wife and two children. His mother Mrs. Gertrude Watkins, two brothers, Clyde and David, and one sister, Mrs. John Hendrick, also survive him. The body was buried at Manitou.

At a regular meeting of the city council held last Friday Bud Waterfield was elected Chief of Police to succeed Lee Scholes, resigned. Mr. Waterfield is one of the best-known citizens of the county and has had considerable experience as a public officer, having served as deputy sheriff under the late L. W. Holland. HENRY BOSWORTH IN RACE FOR GOVERNORSHIP IN OLD KENTUCKY

State Auditor Who Has Helped to Bring About Fairer Valuation of Franchises of Big Corporations Is a Candidate For Democratic Nomination.

RUNNING ON RECORD AS PUBLIC SERVANT

Full Day's Work For Full Day's Pay and a Square Deal in Taxation For Rich and Poor Alike in His Platform.

After due reflection I have fully decided to become a candidate for the Democratic nomination for governor of this great state. I do this with a full sense of the high responsibility incurred, if nominated, and the obligations that will rest upon me if elected. I have been a Democrat all my life and have never voted against a party nominee. My father before me was a Democrat, and I am proud to say that I have five brothers of the same faith, all of whom have been equally loyal with myself to the Democratic faith, and I now ask that the people of this great commonwealth shall

HENRY M. BOSWORTH.

form their judgment of my character, honesty and intelligence and fitness for the office, after a critical examination of my official conduct, and after making careful inquiries of those who know me as to my reputation for honesty and fitness for the office, and it is for them to say whether I am entitled to a continuance of that support and of the confidence they have in the past so generously accorded me.

While acting as treasurer of the state during the fearful financial panic of 1907, I made such disposition of the funds of the state in my care during that critical time as to preserve the credit of the state, without imperiling or destroying the credit of a single institution in the state and without the loss of a single dollar of the state's funds.

The auditor of the state, by virtue of his office, is chairman of the board of valuation and assessment of the state of Kentucky, which board has been entrusted to it a duty which is of more importance to the people of the state than any other duty connected with that office. It is the function of that board, of which I have been chairman for the past three years, to value and assess for taxation the franchises of all railroad companies and public service corporations doing business within the state. This character of property forms a considerable proportion of the total taxable property in the state and the amount of taxes these companies are required to pay is dependent upon the nature of the assessment made against them. That is, if the assessment of their property is too low, these corporations will not be charged with their fair share of the public burden. If too high, then the owners thereof pay more than their fair proportion of the taxes of the state.

It was a matter of common report and general belief among the people of this state that the franchisees of

railroad companies and other corporations liable to a franchise tax had been inadequately assessed for many years, and consequently were not paying their fair proportion of the taxes due the state and the counties and cities therein. During my campaign for auditor in 1911, I pledged the people that, if elected, I would fully and fairly investigate this subject and, if I found that the franchisees of these corporations were not fairly assessed, as chairman of the board I would use my power to correct any official delinquency that had theretofore existed in that respect.

Such after entering upon my official duties as auditor I caused a careful examination to be made of the reports made by all corporations for assessment purposes to ascertain whether these corporations in the past had been adequately assessed for the purposes of finding out the truth as to the actual value of this character of property to the state.

I had this information carefully prepared, in writing, and when the time came to assess these franchises I laid before my colleagues on this board the results of the investigation I made of this subject showed that most of the small companies doing business in the state had previously been properly assessed, but the large corporations of the state, those with great power and political influence, had been grossly under-assessed, either by design or through incompetency. One of the most blatant examples of favoritism extended by

the state to these franchises should be judicially determined and forever settled, because the better has prevailed in this state among all the people for some years that the big corporations of the state were always active in politics of the two dominant parties of the state, with the end in view of being favored in the assessment of their franchises. With franchises of corporations assessed at their real value, as they should be, the corporations will be taken out of politics in this state as they ought to be.

As auditor of the state for the past three years I have also been a member of the sinking fund commission of the state and, having information gained while acting in that capacity, I believe I am thoroughly familiar with the fiscal affairs of the state.

I am in favor of, and, if elected, will advocate the passage of a law that will require that all state supplies used at all state institutions to be purchased by the competitive bidding system; and that the lowest open bid for supplies furnished all institutions be accepted, and I believe the state could easily save \$100,000 a year by inaugurating such a system.

I am in favor of and will work for, if elected governor, the establishment of a system of taxation that will be fair and just to rich and poor alike, and that will cause the lifting of personal property for taxation, which now, because of the rate of taxation for many taxing districts, does not pay any taxes at all, and that will place the burden of taxation where it belongs, on those best able to bear it. I am in favor of such legislation, or of a constitutional amendment, if necessary, to put a fixed and definite limit upon the rate of taxation in Kentucky, a step which I believe will cause our officials to follow a policy of economy and efficiency in the handling of the people's funds.

I am opposed to the convict labor system and favor the abolition of the present contract system and the elimination of the competition with organized labor that is the direct result of it. I am in favor of the use of convicts to produce what is needed by the state institutions and of the purchase of a farm on which they may labor in the open air to produce the foods needed in these institutions.

I am a thorough sympathizer with the farmer, having been a farmer and living on a farm all my life. I will do all I can as governor for the great agricultural interests of Kentucky, and the men and women engaged in it. As long as the farmer is prosperous, every other interest in the state is prosperous, and all her people share in disaster to them as well as in their prosperity.

If I am elected governor I will do all I can to further the good roads movement, and all that is possible to secure a liberal appropriation for our schools and their continued improvement.

If the people want for governor of the state a man who will devote his time and what talents he may have entirely to their welfare, without regard to any future political preferment for I believe there can be no higher office, certainly no higher honor, than the governorship of the state in which I was born and reared, then I want the nomination. There is no reason why the officials of the state should fail to give to the state the same devotion to duty as is exacted by any business corporation of its employees, and I promise the people not only to devote that time myself to their interests, but so far as I may have the power to see that every other employee in executive departments of the state government does the same. A full day's work for a full day's pay will be the motto followed in the governor's office if I am elected, and it will apply to all the other departments over which I may have even the semblance of control or influence.

HENRY M. BOSWORTH.
